NOTE: All denominators for lower part of scale are 64. "N-1" stands for non-Indian. To determine degree of blood of children, find degree of one parent in left hand column and of the other parent in top row. Read horizontally to right and vertically below to find the proper degree. Example: Child of parents, one 1/16 and the other 5/8 would be 21/32.

Blood degrees inside the black boxes are less than 1/4
