# BERING STRAIT REGIONAL ENERGY SUMMIT

**MAY 7-9 | Nome, AK**  
**Mini Convention Center**

**May 10 | UAF NWC**

March 11, 2019

Dear community member,

The Kawerak Energy Program would like to cordially invite you to the 2019 Bering Strait Regional Energy Summit, to be held May 7-9 in Nome, Alaska with additional energy workshops and a grant writing course available on May 10.

For this summit, we invite you who work with energy in your community to come learn about energy resources and how we can reduce energy costs. We hope you will share your experiences, gain knowledge, and help to develop creative ideas for decreasing the cost of energy in your hometown through efficient, affordable, sustainable energy projects.

Whether you are a power plant operator, city official, tribal council officer, corporation board member, local utility manager, or simply a resident passionate about energy use in your community, we welcome you to register for this year's summit.

With generous funding provided through a grant with the Department of Energy's Office of Indian Energy Technical Assistance Program, Kawerak's Energy Program is excited to bring various energy experts and skilled contractors to the summit. All of them are excited to share their knowledge with the region, listen to community goals, and assist communities with their priority energy projects.

We are offering paid airfare, lodging and per diem for one energy representative per village located outside of Nome. There will also be travel scholarships available for 15 extra participants on a first-come, first-serve basis, with a max of three sponsored reps per community.

Please complete the attached registration form and email to [energy@kawerak.org](mailto:energy@kawerak.org) or fax to (907) 443-4445. To receive travel funding, all registration forms must be received by **April 19, 2019**.

Thank you for your time & I look forward to seeing you in May!

Kind Regards,

Amanda Toerdal, Energy Development Specialist | [atoerdal@kawerak.org](mailto:atoerdal@kawerak.org)
