Note: If you receive a travel scholarship from Kawerak, you must attend all three days.

- Tuesday, May 7 - Energy Summit Day One
- Wednesday, May 8 - Energy Summit Day Two
- Thursday, May 9 - Energy Summit Day Three

If you plan to attend the **optional** day, please choose your preferred workshop:

- Strategic Energy Management, Friday May 10

An all day course about managing energy in your community. Geared towards utility managers, power plant operators, maintenance workers, and others who work closely with utilities in their communities.

Course brought to you by ANEEE (Alaska Network of Energy Education and Employment) REAP (Renewable Energy Alaska Project) alaskarenewableenergy.org and AHFC (Alaska Housing Finance Corporation) ahfc.us

- Grant Writing Course, Friday May 10

An all day course about the fundamentals of grant writing, tips for making successful proposals, and strategies for getting your projects funded. A perfect course for anyone from beginner to expert grant writers, or those just interested in getting started writing grants. Taught by Meredith Noble (SenecaWorks) learngrantwriting.org

MEDIA NOTICE: By completing this registration form, you agree to our media notice: Photography, video recording and voice recording may take place during the 3-day energy summit, energy fair, one-day optional workshops, and during surrounding activities. This media will be used on Kawerak, Inc. marketing and communication to include social media, website, newsletters, thank you emails, grant reports, presentations, and other outlets. The meetings taking place during this summit are open to the public and press. All meetings and some workshops will be recorded for review, note-taking and minute-taking purposes. If you have questions about this notice, please contact atoerdal@kawerak.org

We are putting together an energy steering committee of 20 people: one representative from each community in the Bering Strait Region. These representatives will be expected to attend the energy summit each spring to learn about energy, make important decisions for the region, and bring energy information back to their communities. From this committee, a 5-person board will be formed.

Would you like to be **the energy representative** for your community?

Yes No I need to learn more first.

If **yes**, please have two officers from your traditional or tribal council sign in support of your representation:
